Subject: Reminder: Jan 26th Webinar on Partnerships with Civil Support Teams

LRN Broadcast Email To: All LRN Laboratories

This is a reminder that on January 26, 2011 the Association of Public Health Laboratories (APHL) in collaboration with the Centers for Disease Control and Prevention's Laboratory Preparedness and Response Branch (LPRB), the National Center for Environmental Health (NCEH), the National Guard Bureau (NGB) Civil Support Team (CST) Office, State Hygienic Laboratory at the University of Iowa and Iowa's 71st CST will provide a training webinar. The purposes of this webinar are to:

- provide guidance on the use of the document, "The Role of Civil Support Teams in Support of the Laboratory Response Network";
- outline the unique capabilities of the LRN Reference Laboratories and CSTs; and
- demonstrate a real life example of partnership between an LRN Reference Lab and a CST.

The webinar is a follow up to the formal release of "The Role of Civil Support Teams in Support of the Laboratory Response Network," posted on the LRN website on August 3, 2010. The guidance document, which can be found under Documents/General Information/Role of CSTs in the LRN (last page of the General Info section), was developed by APHL's Public Health Preparedness and Response Committee in coordination with NGB CST leadership. The LRN Program Office, FBI, and other LRN partners reviewed and supported the implementation of this document. The webinar will assist with the implementation by providing more specific guidance on the role of CSTs in support of the LRN.

CSTs will be invited to participate; however we recommend that you work with your jurisdictional CSTs to find a common site to join the webinar.
